No Hazard Signs

Insecticides FREE

6 Months Protection from Bed bugs

Bed bugs STOP

- ✓ Allerg-STOP penetrates the fibers and remains fully active for 6 months!
- ✓ Allerg-STOP neutralizes larvae and eggs from bed bugs, which are not affected by insecticides!

Necessary after whichever method you use

- Wiping - Vacuuming
- Steam cleaning
- Deworming

Allerg-STOP is necessary to protect mattresses and prevent bed bugs from coming back for 6 months

Allergies

Allerg-STOP Repellent is an innovative product that is primarily aimed at those who use the mattress and want to take care of it, to keep it clean and healthy, because even though they use it every day, the mattress cannot be washed, resulting in the accumulation of allergens, germs and dead cells making it unhealthy.

Allergens in the Mattress Nr.1 Cause of Allergies

Source: WHO

It is necessary for newborns and children up to 6 years old, for people with sensitive health, people with allergies, conjunctivitis, respiratory and dermatological diseases, etc. Also for those who often travel ,use shared mattresses and in the areas with pets and domestic animals.

Recommended by Doctors

Newborn Babies | Children Allergies

Newborn babies up to six year old are very sensitive to allergens and if exposed they develop an allergy. For this reason, it is very important to apply Allerg-STOP Repellent to all baby items, crib, mattress, baby carrier, relaxer, stroller, car seat, stuffed toys, and all fabric and fibrous surfaces in the baby's area such as carpets, furniture upholstery, curtains and air conditioner filters.
